

A 3x2 grid of six apples, each with a different color scheme (red, yellow, green, orange, etc.) and a small black dot in the center, set against a background of repeating text. The apples are arranged in three rows and two columns. The background text is a repeating pattern of "Channel TCPDF test PNG Alpha" in a light gray font. The apples are positioned over the text, partially obscuring it. Each apple has a small black dot in the center of its face, likely representing a camera lens or a sensor. The colors of the apples vary, with some being predominantly red, others yellow, and some a mix of colors. The lighting is even, and the apples appear to be floating or resting on a surface. The overall composition is a digital collage or a test image for a software application.
